Subject: Change In Fee Collection Structure

Dear Parents,

This is to inform you that, as per recent government directions, schools are now required to collect fees on a monthly basis. At the same time, the order also mentions that parents are free to pay fees for more than one month together, should they wish to do so. While we will comply with this directive, this sudden change will place some constraints on the smooth planning of day-to-day activities and ongoing infrastructural maintenance and development.

Over the past three years, more than 85% of our parents have consistently paid fees on a quarterly basis. Your timely support has enabled the school to run programmes efficiently, initiate new ones and continue important maintenance and development work. We remain sincerely grateful for this cooperation.

While the structure will now reflect monthly payments, I would sincerely encourage those who have been paying quarterly to continue doing so, if feasible, by selecting more than one month. Advance payment greatly helps the school maintain continuity and quality across all areas.

We remain committed to providing the best possible educational experience for your children, and we value your continued support.

Warm regards,

Br. Robert Fernandes
